

## European School of Neonatology (ESN) Pre-congress Course at jENS 2023

Tuesday, 19 September 2023, 09:00 - 16:00 CEST

**ESPR section name:**

Neonatal Resuscitation

**Course chair(s):**

Arjan te Pas, Colm O'Donnell

**Main theme:**

Resuscitation

**ECTS points:**

0.5

**Course description:**

The pre-congress course 'Resuscitation' provides the participant with evidence, best practices and new insights on interventions that are used in the delivery room to stabilize infants directly after birth. In the morning session, experts in the field from different centres across Europe will talk about the latest findings regarding temperature management, cord management, stimulation of breathing and respiratory support. In the afternoon session, practical workshops regarding newborn life support will be given, including sophisticated training methods.

**Course objectives:**

- To provide participants with latest evidence regarding frequently used interventions in the delivery room.
- To improve skills used in newborn life support, such as mask ventilation.
