

ACADEMY OF
NEONATOLOGY

Resuscitation at the First Minutes of Life

International Webinar

Wednesday, August 12, 2020
18:00 CEST Time

Dear Invitee,

We cannot overestimate the tremendous importance of the resuscitation at the first minutes of life. Those few minutes might have influence throughout our life. This is why we must optimize the care of the newborns in this critical period.

We are fortunate to gather around some of the world specialists in this field, who in this webinar will give us a glance to the cutting edge of this treatment.
