

Online Module - Neonatal Haemodynamics

starting October 8th 2020

The Neonatal Online Training and Education (NOTE) Faculty of the European Society for Paediatric Research (ESPR), in collaboration with the University of Southampton, are pleased to invite applications for their next online module.

THE MODULE

- The lead module developer is Prof. Afif El-Khuffash (Dublin).
- This module will be delivered over a period of approximately 10 weeks. The core material will be accessible online via the Virtual Learning Environment (VLE).
- Synchronous and asynchronous online communication within trans-national student groups will promote collaborative discussion and debate relating to current neonatal care.

PRE-REQUISITES

- You should be prepared to study at postgraduate level.
- You will need to be online for approximately 4 hours each week working throughout the module, in addition to the time for required reading.

ACCESS OPTIONS

MSc option

- On successful completion of a module, 20 M Level credits/10 ECTS will be awarded.
- Summative assessment is integrated throughout each module.

Continuing professional development option

- You will follow the same curriculum as with the MSc, but there is no assessment or accreditation linked to this option.
- On completion of the module you will receive a certificate of attendance.

BENEFITS

- Cutting edge online lectures by an international neonatal Faculty of neonatal cardiology specialists.
- Opportunity to share knowledge, experience and best practices with neonatal colleagues globally.
- Flexible, educationally robust modules designed to meet the needs of clinicians.
- Guest lectures from recognised experts.

RESOURCES

- Online, subject-specific library
- Guest lectures
